

I'm Mhnna ,I'm 37 years old I study English literature at Irbid national university ,I'm an army officer , and I have a four member-family, one son and three daughters.It is not easy to study and having family and a job simultaneously, sometimes I have to come to university after finishing work and it takes me 2 hours due to my job in another city.On the other hand, it was hard to afford my study which was a big challenge for me, but -All praisebe to Allah- I managed to cross all those difficult circumstances.I'm now about to finish my study, it is one or two semesters after being through difficult tims.
